## THE SANTA CLARA HERITAGE

---

On Jan. 12, 1777, six months after the signing of the Declaration of Independence, two Franciscan padres, Tomás de la Peña and José Antonio Murguía, founded the eighth of California's original 21 missions along the banks of the Rio Guadalupe. Mission Santa Clara de Asís, as they named it, served as a spiritual center and school for the Indians and early settlers. Besides providing religious instruction for both men and women, the Franciscans taught the men stock raising, farming, and the building trades; the young girls, weaving and sewing; the boys, reading, music, and religious drama.

Three times in the early years—twice after floods and once after an earthquake—the mission moved to safer ground. The fourth mission, built in 1819, was remodeled and expanded in 1825. The present Adobe Lodge and the Adobe Wall are all that remain of the 1825 mission. The present Mission Church, an enlarged replica of the 1825 church, was completed in 1928 after a fire destroyed the previous structure.

In 1850, the new bishop of San Francisco, Joseph S. Alemany, asked Jesuits Michael Accolti and John Nobili, formerly of the Oregon mission territory, to open a college at Mission Santa Clara. The property was transferred to the Jesuit order and classes began on March 19, 1851. Thus, Santa Clara became the first institution of higher learning in the state of California. During its first complete

academic year, 1851–52, Father Nobili and a few Jesuits and lay teachers offered instruction in reading, writing, and foreign languages. Santa Clara College, opening its doors with 12 students, taught approximately 40 students during its first year.

In 1854, the Jesuit Province of Turin, Italy, adopted California as its permanent mission field, marking a turning point in Santa Clara's history. As a consequence, the Jesuits of Turin provided the college with the faculty and support it needed to grow. The following year, Santa Clara College received a Charter of Incorporation from the state of California.

Slow and steady growth followed, and distinguished graduates became prominent members of California life. In 1912, a year after the School of Law was founded, Santa Clara College became Santa Clara University. In that same year, the School of Engineering was founded, and courses in the humanities and sciences were expanded. Responding to urban growth in the Santa Clara Valley, the University established a School of Business in 1926. Today, Santa Clara University consists of the College of Arts and Sciences, the Jesuit School of Theology, and the schools of law, business, engineering, and education and counseling psychology.

The Board of Trustees has voted to limit the size of the undergraduate population, an action intended to

preserve the character and ensure the quality of the University for generations to come. Today, Santa Clara enrolls approximately 5,000 undergraduate students and 3,500 graduate students. Since 1960, the number of courses taught has more than doubled, and opportunities for individual study have proliferated. Santa Clara University continues its mission of service by helping its students become well-balanced human beings through an education that emphasizes both humanistic values and professional competence.

Beginning in 1851, the classical learning of the more scholarly students was presented at the annual exhibition, or commencement, which closed each academic year. In 1857, Santa Clara College conferred its first bachelor of arts diploma, the first collegiate degree granted by an institution of higher learning in California. For 2010–11, Santa Clara University conferred 1,259 bachelor's degrees; 366 master of business administration degrees; 37 master of science degrees in information systems; 152 master of arts degrees in education and counseling psychology; 304 master of science degrees in engineering; eight master of arts degrees in pastoral ministries; one degree of engineer, six doctor of philosophy degrees in engineering; 26 law legum magister degrees; 296 juris doctor degrees; 47 master's degrees and six doctor of sacred theology degrees in the Jesuit School of Theology.

## THE ACADEMIC TRADITION

---

**Banners:** There are seven banners, each representing a different area of study and modeled after the guild signs used in medieval Europe. Every medieval guild adopted a simple picture as its sign, usually the guild's product or the tool of its trade, to identify itself. Following in that tradition, each area of study is represented by a banner bearing an appropriate symbol: an open book symbolizes intellectual pursuits in the arts, humanities, and history; a flask represents study in the sciences; a gear wheel is the symbol of engineering; an abacus indicates the financial orientation of business; the scales of justice stand for law; interlinked hands symbolize education and counseling psychology; and the IHS seal of the cross represents the Society of Jesus.

The background colors of the banners are in accordance with traditional academic heraldry: white for arts and humanities, yellow for sciences, orange for engineering, drab (brown) for business, purple for law, light blue for education, and scarlet for theology.

Also on display are 28 banners, representing the Jesuit colleges and universities across the United States.

**Flags:** The tall dory poles proudly wave the University's colors of red and white. The 68 flags that create the backdrop for the ceremonies represent the countries that are host to Jesuit universities and ministries, as well as

the locations around the world where our students have studied.

**Seal:** At the center of the stage is the University seal, matching the presidential medallion worn by the President and consisting of two circles. The outer circle displays the words "Santa Clara University" and the year "1851," when this institution was founded. The inner circle holds a sky of 13 stars, symbolic of the original American colonies, above the American eagle, which is perched upon a shield containing the Jesuit seal of the cross (IHS) and three broad-headed nails.

**Attire:** The colorful attire worn by the graduates, faculty, and officers of the University on the occasion of these commencement exercises has roots in medieval times. Dressed in cap and gown, the graduates and their professors form part of a long tradition that dates back to Europe's first universities: to Paris and Bologna, to Oxford and Salamanca.

The origins of the several parts of the academic garb are not readily known. Since medieval students enjoyed the status of clerics during their university years, it is most probable that their attire was fashioned after the clerical dress of the time. The gown seems to be an adaptation of the robe of the friar or priest, and the hood resembles the monk's or friar's cowl. The present-day mortarboard cap may have curiously evolved from the skullcap that protected the tonsured

heads of students against the drafts of medieval classrooms.

Academic attire began to appear on U.S. campuses in the late 1890s. Since that time, its use has become customary for solemn university functions.

**The Gown:** Each degree has its own style. The bachelor's gown is a yoked, closed-front garment, with long, pointed sleeves. The master's gown is cut to be worn with open or closed front; its sleeves are long and are either open or closed, but slit just above the elbow to allow the forearm to protrude. The gown of the doctor is also worn open or closed and has full, bell-shaped sleeves. Only the doctor's gown is trimmed with velvet panels down the front and three velvet bars on each sleeve. While black velvet is the trimming for all doctors' gowns, other colors of velvet trimming identify the major area of study.

**The Hood:** At first, the hood seems to have been worn over the head and was attached to the gown. When the skullcap was introduced, the hood was retained but detached and worn much as it is today. Each degree (bachelor, master, doctor) has the right to a hood. It varies in length and, for the doctor's degree, also in pattern. The bachelor's hood is 3 feet long, the master's hood is 3.5 feet long, and the doctor's hood is 4 feet long with wide panels on either side.

The color or colors with which the hood is lined are those of the college

## THE ACADEMIC TRADITION

---

or university granting the degree. For example, Santa Clara University has a partipar hood with cardinal above white. The colored velvet binding or edging of the hood, in different widths for bachelor, master, or doctor, indicates the area of study within the university granting the degree: dark blue for philosophy (Ph.D.); light blue for education (Ed.D.); white for arts and letters (Litt.D.); golden

yellow for sciences (Sc.D.); orange for engineering (Eng.D., DCE); purple for law (LL.D., DCL, J.D., JUD, JCD); drab (brown) for business (DBA, Ph.D.); scarlet for theology (S.T.D., D.D.).

*The Cap:* The mortarboard cap is the generally accepted style in the colleges and universities of the United States. Many European and Latin American institutions retain distinctive forms of

academic headdress, such as the University of London's tam-o'-shanter cap and the University of Mexico's octangular biretta.

*The Honor Cord:* The gold honor cord is given to those undergraduate students who have an overall grade-point average of 3.50 or higher for cum laude, 3.70 or higher for magna cum laude, and 3.90 or higher for summa cum laude.

## HONORARY DEGREES

---

Doctor of Sacred Theology  
Honoris Causa

**Reverend Michael J. Buckley, S.J.**

A.B., Gonzaga University, 1955

M.A., Gonzaga University, 1956

S.T.L., Santa Clara University, 1963

Ph.D., University of Chicago, 1967

Influential theologian and dedicated member of the Society of Jesus, Michael J. Buckley, S.J., is Professor Emeritus in the Religious Studies Department at Santa Clara University. Before joining Santa Clara's faculty in 2006 as the Cardinal Augustin Bea University Professor, he was a member of the theological faculty at Boston College for fourteen years, where he served as the Director of the Jesuit Institute and as Canisius Professor of Theology.

In the course of a long and distinguished career, Fr. Buckley has taught and conducted research as a member of the Pontifical Faculty of Theology at the Jesuit School of Theology at Berkeley, visiting professor at the Gregorian University, and visiting fellow of Clare Hall at Cambridge University, where he is a life member.

He also has held appointments at the University of Notre Dame as professor of philosophical theology and as faculty fellow at the Reilly Center for Science, Technology, and Values.

Among numerous essays, his contributions to theology comprise multiple books and membership in many prestigious academic societies. He also served as the executive director of the Committee on Doctrine of the National Conference of Catholic Bishops and as the president of the Catholic Theological Society of America.

Fr. Buckley is a voice of wisdom on matters of faith and spirituality, and his work helps ensure that an emphasis on justice will be a mark of Jesuit education. His outstanding achievements, integrity, and international reputation all reflect the vision and values of Santa Clara University.

## HONORARY DEGREES

---

Doctor of Education  
Honoris Causa

**Mary Somers Edmunds**

B.A., Santa Clara University, 1962

This year marks the fiftieth anniversary of women undergraduates at Santa Clara University. To celebrate this milestone, the University honors Mary Somers Edmunds as representative of the pioneering women of Santa Clara University.

On March 21, 1961, Santa Clara University President Patrick Donohoe, S.J., made history by decreeing that the University would admit women in the fall, making Santa Clara the first coeducational Catholic university in the state.

In the years leading up to this announcement, the University had made many strides toward coeducation. In 1956, Santa Clara drew national attention when President Herman J. Hauck, S.J., announced that student nurses from nearby O'Connor Hospital would enroll as non-matriculating students beginning in the fall of 1957. The law school began admitting women in 1956, and the business graduate program did so in 1958.

Among the first class of women undergraduates were seventy freshmen, a handful of sophomore and junior transfer students, and one senior, Mary Somers Edmunds. In 1962, Edmunds became the first woman to graduate from the undergraduate degree program.

Following her graduation from Santa Clara, Edmunds completed several certificate programs in instruction and writing. Her professional career has spanned decades in business communication, technical training, and language instruction. She has focused her efforts on cross-cultural coaching for business professionals and has worked with numerous Silicon Valley clients such as Google and Cisco Systems.

## HONORARY DEGREES

---

Doctor of Engineering Leadership  
Honoris Causa

**Steve Wozniak**

B.S., University of California, Berkeley, 1986

Steve Wozniak is the iconic co-founder of Apple Computer, Inc., current chief scientist at Fusion-io, and one of the original architects of the personal-computing industry.

In 1976, he and Steve Jobs founded Apple Computer Inc. with Wozniak's Apple I personal computer. The following year, he introduced the Apple II personal computer, which included innovations such as a central processing unit, a keyboard, color graphics, and a floppy disc drive. The success of this computer has been credited with helping to launch the PC industry.

Throughout his career he has also shown a passion for math and science education. Wozniak has taught both students and teachers while stressing hands-on learning and encouraging creativity in students. He "adopted" the Los Gatos Union School District by providing students and teachers with donations of state-of-the-art technology equipment. Through his philanthropy, he helped found the Tech Museum, Silicon Valley Ballet, and the Children's Discovery Museum of San José.

In 1981, Wozniak returned to the University of California at Berkeley and completed his degree in electrical engineering and computer science. For his achievements at Apple, President Ronald Reagan awarded Wozniak the National Medal of Technology in 1985. This is the highest honor bestowed on America's leading innovators. In 2000, he was inducted into the Inventors Hall of Fame and received the prestigious Heinz Award for Technology, The Economy, and Employment.

## HONOR SOCIETIES

---

Santa Clara University is proud to host 25 prestigious national honor societies in the liberal arts, sciences, business administration, and engineering. These societies reflect a long tradition of academic excellence, back at least 50 years. Some date from the 19th century, and one dates from the 18th century.

### **Alpha Delta Gamma**

Alpha Delta Gamma, the national Medieval and Renaissance studies honorary society, was founded in 1993 by the Program in Medieval and Renaissance Studies of the College of William and Mary in order to recognize faculty and students who share a love for the European Middle Ages and Renaissance. The Alpha chapter at Santa Clara was founded in 2000. Alpha Delta Gamma strives to encourage the highest ideals of scholarship and intellectual attainment. To be eligible, a student must be a declared candidate for a minor in Medieval Renaissance studies, have completed at least three courses in the program, and have earned a grade point average of 3.0 overall and 3.1 for the courses in the program.

Advisor: Thomas P. Turley  
Associate Professor of History

### **Alpha Kappa Delta**

Alpha Kappa Delta, the national sociology honor society, was founded at the University of Southern California in 1920. The Santa Clara University chapter, Alpha Mu, was founded in 2000. The society's primary goal is

to encourage social research for the purpose of service. To be invited to join, a student must be a sociology major of junior or senior standing, have an overall grade point average of 3.3 or higher, have completed at least four sociology courses at Santa Clara, and must have successfully completed at least Sociology 119 and 120 in the research sequence.

ALMA MATER  
SANTA CLARA UNIVERSITY

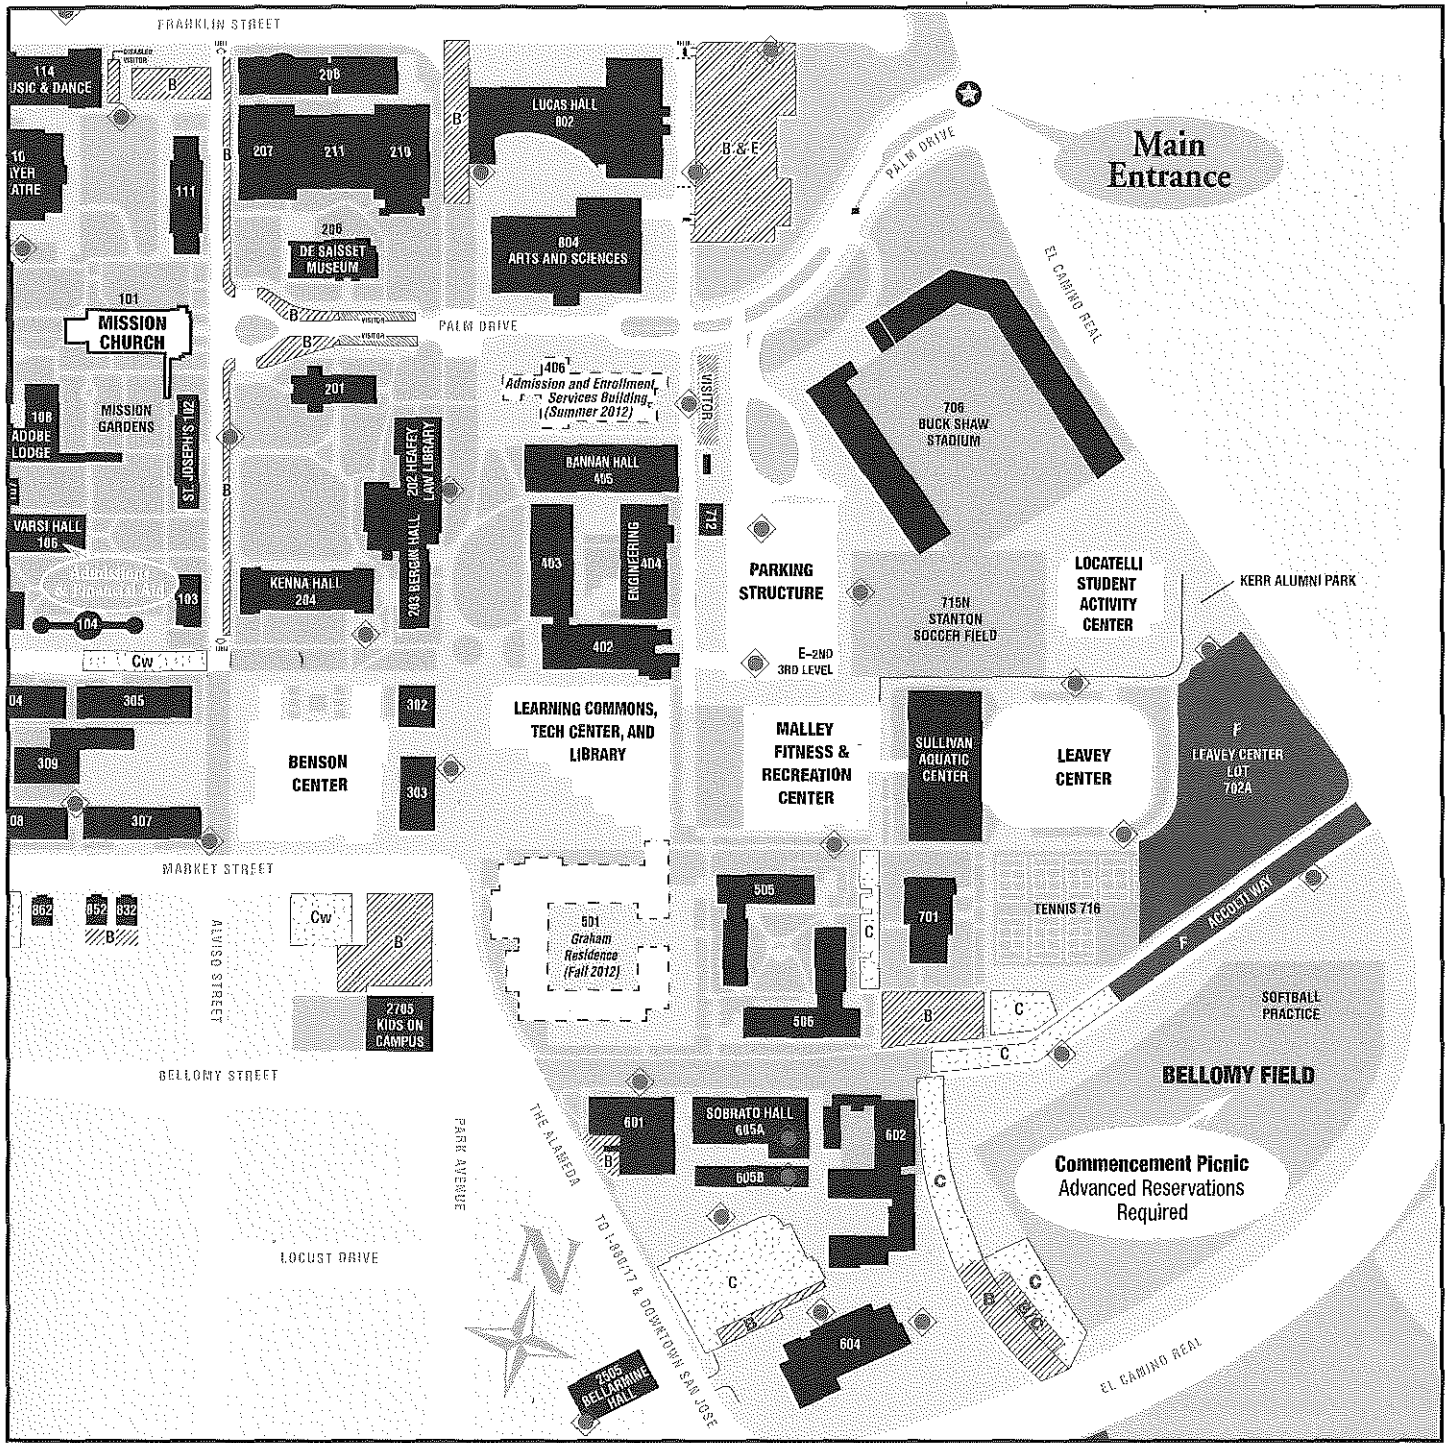

---

by Joseph Riordan, S.J.

Santa Clara, Alma Mater, lo! Our hearts are pledged to thee.

El Dorado's first-born daughter, who beside the western sea  
where the palm and olive mingle, bade the torch of science burn,  
when our footsteps bear us from thee, back to thee our hearts will turn.

This the mission bells are telling as exultingly they ring  
"Santa Clara, Santa Clara, Alma Mater," sweet they sing,  
where the palm and olive mingle, proudly raise their heads on high  
in the earliest fane of science, built beneath our western sky.

SANTA CLARA UNIVERSITY, *a comprehensive Jesuit,  
Catholic university located 40 miles south of San Francisco in  
California's Silicon Valley, offers its more than 8,500 students rigorous  
undergraduate curricula in arts and sciences, business, theology, and engineering,  
plus master's and law degrees, and engineering Ph.D.s. Distinguished nationally  
by one of the highest graduation rates among all U.S. master's universities,  
California's oldest operating higher-education institution demonstrates  
faith-inspired values of ethics and social justice.*
